<p>
  I am currently a teaching-focused lecturer in
  the <a href="http://www.cs.bham.ac.uk/" target="_blank">School of
    Computer Science</a> at the <a href="http://www.bham.ac.uk/"
                              target="_blank">University of
    Birmingham</a>.
  My main areas of interest
  are where computer security and networking meet.  You can read more details about
the courses I teach, my hours, my contact details and more <a href="cs.html">here</a>.

<p><b><a href="Calendar.pdf">My teaching and office calendar is here.</a></b>
<p>My office hours are currently Wednesdays 1100&ndash;1200 and Thursdays
1400&ndash;1500.

<p>
Contrary to what you might think from my dapper appearance, I
am not a fashion designer.  That other Ian Batten
is <a href="http://www.ianbatten.com">here</a>, although the last time
I drove past his shop he appeared to have retired and the website has
not been updated in some years.

<!--
<p>

I spoke at a cyber-security event organised by <a href="https://londondsc.co.uk">the London Digital
Security Centre</a> in Birmingham in October 2017.  The slides
are <a href="Wesleyan.pdf">here</a>.
<p>
  I recently repeated that talk with some minor edits for a delegation
  organised by Sunland International.  The slides are
  <a href="Tuesday16.pdf">here</a>.  The associated slides about
  Birmingham's Cyber Security teaching and research are <a href="2018-sept-security-bsc-level-open-day-talk.pdf">here</a>.
-->

<p>I tweet as <a href="https://www.twitter.com/ibatten">@ibatten</a>.
Occasionally I post longer things <a href="http://igb.posthaven.com"
target="_blank">here</a>.  I am on LinkedIn
```

as &lt;a href="https://www.linkedin.com/in/ianbatten/"&gt;ianbatten&lt;/a&gt;.

&lt;p&gt;&lt;a href="https://keybase.io/igb" target="_blank"&gt;&lt;b&gt;My various keys can
be obtained here, including my primary PGP key&lt;/b&gt;&lt;/a&gt;.  A copy of my
primary PGP key is also available &lt;a href="battenkey.asc"&gt;here&lt;/a&gt;.  I
intend to sign all keys for the foreseeable future with &lt;a href="signkey.asc"&gt;this
key&lt;/a&gt;.
&lt;p&gt;
&lt;p&gt;&lt;a href="bhamkey.asc"&gt;An additional PGP key for my Birmingham email can be found
here&lt;/a&gt;.
It has been cross-signed with my primary PGP key.
&lt;p&gt;
I have a taste for &lt;a href="calculators.html"&gt;old Hewlett Packard calculators&lt;/a&gt;, and modern
clones of
them.  If you are throwing any out, throw them my way!

&lt;p&gt;My PhD, &lt;a href="http://etheses.bham.ac.uk/6684/"&gt;"Trusted Execution: Applications and
Verification"&lt;/a&gt;
was awarded in April 2016, thanks
to the excellent supervision of &lt;a href="http://www.cs.bham.ac.uk/~mdr"&gt;Professor Mark
Ryan&lt;/a&gt;.

&lt;p&gt;I have
  an &lt;a href="https://en.wikipedia.org/wiki/Erd%C5%91s_number"&gt;
Erd&amp;#337;s number&lt;/a&gt; of 4, according
  to &lt;a href="https://www.doc.ic.ac.uk/~iccp/erdos.html"&gt;this Imperial
  analysis&lt;/a&gt; which has Mark Ryan at 3.

<p><a href="https://www.he.net" target="_blank">Hurricane Electric</a>
very kindly provided my home IPv6 connectivity for some years.  I now
have it natively via the excellent <a href="http://aaisp.net"
target="_blank">Andrews and Arnold</a>, but HE's commitment to IPv6
rollout should be recongnised as well.
